Programme Note

Frozen Plains is a composition inspired by the icy landscapes of Antarctica, exploring how musical stasis can invoke the stillness found on these frozen icecaps. The title *Frozen Plains* serves a double meaning, representing both the static music in this piece as well as the imagery of glaciers. The landscape of Antarctica, a point of fascination for me, depicts ice continuously thawing and freezing as if the landscape is always changing shape. The music captures this through delicate textures and drifting melodies morphing from one idea to another. The ending of *Frozen Plains* hints towards our impact on the environment, where the layers of music melt away leaving only an intimate trio setting. I wanted this to signal the damage done to the beautiful arctic landscapes and the impact of global warming causing these layers of ice to melt away. The end result would be these wonderful landscapes becoming a fraction of their former glory.

First performed by the BBC National Orchestra of Wales
as part of Composition Wales: 2021.

Duration: Ca. 9'

Performance Notes

During the *senza misura* passage (Rehearsal Mark E) the conductor is required to stop beating and follow the solo oboist. The conductor is required to indicate the cues numbered 1- 6 to indicate which performer to enter or fade out of the passage.
